Child Care Licensing - Physical Exam, Restrictions, Immunizations

Head Start/Early Head Start - Determination that child is up-to-date on a schedule of age-appropriate preventive and primary health care, including medical, dental, and mental health. The schedule must incorporate the well-child care visit required by EPSDT and the latest immunizations schedule recommended by the Centers for Disease Control and Prevention, State, tribal, and local authorities. An EPSDT well-child exam includes height, weight, and blood tests for anemia at regular intervals based on age.

Developed in Cooperation with the Department of Health and Human Services, Education, Michigan American Association of Pediatrics, Early Childhood Investment Corporation, Child Care Licensing, Head Start, Michigan State Medical Society, Michigan Association of Osteopathic Physicians and Surgeons.
